

## A message from our founders

TechKnowledgey® have proudly partnered with Everitas & Credly to bring digital credentials to our clients and our students.

In an increasingly on-line and social media driven world, digital credentials are the next frontier for workplace learning and professional development recognition. This immediately applies to our past and present students who are seeking to have their workplace learning and experience recognized not only by their current employer but also by their peers, clients and other critical stakeholders. You've learned it, you've earned it, it's time to be able to share it!

In appreciation of your efforts as our students, we are offering our recent and current students the opportunity to claim their badges! You have been selected to receive this complimentary service because you are a student who has actively attended and participated in your employer's in-house training programs delivered by TechKnowledgey®.

We hope you have enjoyed learning with us at TechKnowledgey® and we look forward to being there for you on your lifelong learning journey as you progress through your career.

Warmest wishes,

*Nadine & Tor*

# LEARN IT EARN IT SHARE IT

Credly digital badges are the convenient way to showcase your professional accomplishments.

### WHAT IS A CREDLY DIGITAL BADGE?

A digital representation of your significant professional accomplishment, combined with a verifiable description of the specific knowledge and skills required to earn it. A digital badge also is easily online, unlike paper certificates.

-  **Portable**  
Credentials travel with the earner and can be sent, posted and put to use wherever opportunities await.
-  **Data Rich**  
Description, required criteria, evidence, endorsements and more, all viewable in the credential itself.
-  **Engaging**  
Credential issuer's brand is front and center; achievement level and rigor readily displayed; a new channel for communication with stakeholders.
-  **Verified**  
Issued directly from the organization to the individuals and secured against tampering or fraud.

### WHAT IS THE VALUE OF A DIGITAL BADGE?

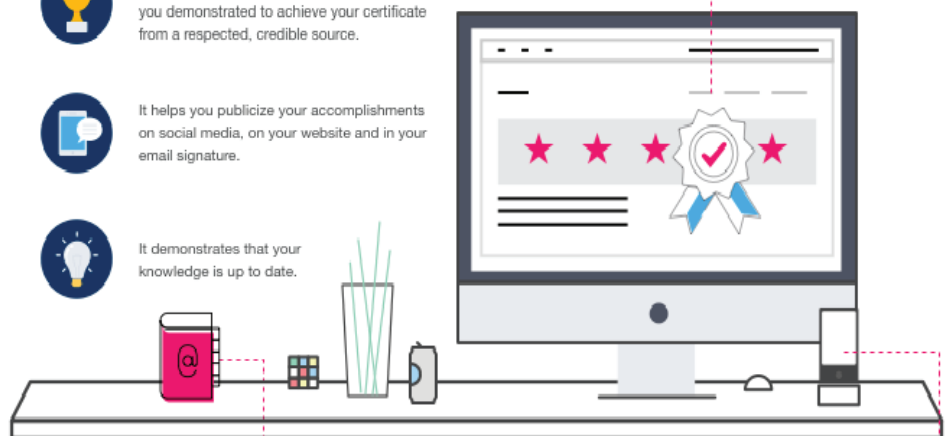

It shows the world the knowledge and skills you demonstrated to achieve your certificate from a respected, credible source.

It helps you publicize your accomplishments on social media, on your website and in your email signature.

It demonstrates that your knowledge is up to date.

### WHO WILL NOTICE?

Clients

Employers

Prospective Clients

Colleagues

### WHERE CAN I USE A DIGITAL BADGE?

Digital badges let the world know what you've accomplished, quickly and easily! Post them on your social media platforms, your email signature and your website.

Facebook

LinkedIn

Twitter

Website

Email signature

## Transferable Skills

### Steps to claiming your TechKnowledgey® learning badge

- 

**Receive an email from Acclaim**  
The email notifies you that you have received a badge or digital credential.
